Vorstellung „Float-A-Poo – Dog Waste Disposal System“

The Float-A-Poo Dog Waste Disposal System

Noted animal trainer and author Todd Lawson has done it again with Float-A-Poo! The simplest way to free yourself of your dog's waste, Float-A-Poo features a handy 50ml helium cylinder, waste bags and quick ties to send your headache into the wild brown yonder!

1 Helium Cylinder
Each cylinder fills 4-6 bags depending on the breed and diet. Additional cylinders are available for purchase at some pet stores.

1600 Bags
Four great colors to brighten the sky! Each will carry up to an 8 oz. specimen with proper helium inflation.

1600 Ties
Two stylish colors ensure a tight seal and a long flight!

FILL IT!

Collect your dog's waste, insert the Float-A-Poo inflator and fill with suggested amount of helium.

FLOAT IT!

Once your bag is filled, seal it with a tie and release. Avoid power lines, windmills, falcons and airports.

FORGET IT!

Get back to your life! Float-A-Poo bags typically carry your dog's waste 2-3 counties away!
